About these instructions

The installation instructions come as part of the Duravit product and must be read carefully prior to installation.

Target readership and qualifications

This is a professional grade product. A working knowledge of construction techniques and code compliant plumbing installation are required for proper installation and user satisfaction. The product must be installed by a licensed plumber.

Explanation of the key words and symbols

⚠ WARNING

Indicates a hazardous situation which, if not avoided, could result in death or serious injury.

NOTICE

Is used to address practices not related to physical injury.

Inspection (e.g. for scratches)

Inspect for leaks and that all connections have a watertight seal

Indication of the length of time (e.g. 10 minutes)

> Action required

Safety instructions

Product and/or property damage

The breach of local and country-specific regulations and standards can cause damage to the product and/or property damage.

- > Observe the local installation regulations and any country-specific standards at all times.

Careless handling can result in damage to the surface of lacquered bathtubs.

- > Protect the bathtub from knocks and scratches during installation and transport.

Prior to the installation

Please read the specifications sheets prior to the installation. Specification sheets are available for download at pro.duravit.us.

Products are in compliance with the following codes:

- Uniform Plumbing Code (UPC®)
- National Plumbing Code of Canada

Delivery contents

Recommended accessories (not included)

790112 (Tile Flange)

790219 (plastic)
790250 (brass)

Drop-in bathtub drain

791281 (PVC)
791282 (ABS)

- > Inspect bathtub for any potential damage that may have occurred during transport.
- > Do not install if any damage is visible.

- NOTICE**
- Suction lifters can cause damage to the surface of lacquered bathtubs.
- > Attach suction lifters to the inside of lacquered bathtubs.

- NOTICE**
- Tilting the bathtub on its side can damage the bathtub.
- > Place cardboard/blanket on the floor.
 - > Turn bathtub over.

- > Remove transportation safety device.

- > Reattach cap to foot.

- > Connect waste and overflow (not included).
- > Refer to manufacturer's installation instructions for drain/waste fitting.

- > Place bathtub on its feet.
- > Make sure the bathtub is level.
- > Adjust feet if necessary.

- > Adjust panel if necessary.
- > Secure firmly.

- > Mark height of the bathtub rim.

- > Attach tile flange (not included).

- > Mark position of clips on the wall.

**⚠ WARNING****Fatal injury by electric shock!**

Contact with electrical wiring can lead to electrical shock.

- > Make sure that there are no electrical wires or heating running under wall or floor which could be affected by the installation.

- > Affix 2 brackets to the wall frame for side support of the bathtub.

- > Clean area under bathtub.

- > Connect waste and overflow to the drain system.

- > Clean the bathtub.

- > Fill the bathtub with water.
- > Inspect for potential leaks.
- > Make sure to water test fittings.

- > Fill the bathtub with water.

- NOTICE**
Apply silicone recommended for acrylic bathtubs only.

- > Let it sit for 24 hours before draining.

Concernant ces consignes

Les consignes de montage font partie intégrante du produit Duravit et doivent être lues attentivement avant le montage.

Groupe cible et qualification

Il s'agit ici d'un produit de niveau professionnel. Des connaissances pratiques des techniques de construction et des installations de plomberie conformes aux normes sont requises pour assurer une installation correcte et la satisfaction du client. Le produit doit être installé par un installateur sanitaire qualifié.

Explication des avertissements et symboles

AVERTISSEMENT

Indique une situation dangereuse qui, si elle n'est pas évitée, peut entraîner la mort ou des blessures graves.

ATTENTION

S'utilise pour répondre à des pratiques sans risques de blessures physiques.

Inspection (par ex. des rayures)

Vérifiez la présence de fuites et si tous les raccords sont étanches à l'eau

Indication de la durée (par ex. 10 minutes)

> Action requise

Instructions de sécurité

Dégâts matériels et/ou endommagement d'une caractéristique du produit

Le non-respect des réglementations et normes locales ou spécifiques à un pays peut entraîner des dégâts matériels et / ou d'une caractéristique du produit.

- > Les prescriptions d'installation des sociétés de distribution locales et les normes nationales doivent être respectées sans réserve.

Une manipulation négligente peut causer des dommages sur les surfaces des baignoires laquées.

- > Protégez la baignoire contre les chocs et les rayures durant l'installation et le transport.

Avant l'installation

Veuillez lire les fiches de spécifications avant l'installation. Les fiches de spécifications peuvent être téléchargées sur pro.duravit.us.

Les produits sont conformes aux codes suivants :

- Uniform Plumbing Code (UPC®)
- Code national de la plomberie du Canada

Contenu de la livraison

Accessoires recommandés (non fournis)

790112 (bride de carrelage)

790219 (plastique)
790250 (laiton)

Évacuation pour baignoire à encastrer

791281 (PVC)
791282 (ABS)

- > Vérifiez la présence sur la baignoire d'éventuels dommages pouvant être survenus durant le transport.
- > Ne pas installer si des dommages sont visibles.

**ATTENTION**

Des élévateurs à ventouse peuvent causer des dommages sur les surfaces des baignoires laquées.

- > Fixez les élévateurs à ventouse à l'intérieur des baignoires laquées.

**ATTENTION**

Basculer la baignoire sur le côté peut l'endommager.

- > Posez du carton/une couverture sur le sol.
- > Retournez la baignoire.

- > Retirez le dispositif de sécurité pour le transport.

- > Remettez le cache en place.

- > Raccordez l'évacuation et le trop-plein (non fournis).
- > Voir les consignes de montage du fabricant pour les raccords d'évacuation.

- > Placez la baignoire sur ses pieds.
- > Assurez-vous que la baignoire est nivelée.
- > Ajustez les pieds si nécessaire.

- > Ajustez le cache si nécessaire.
- > Serrez fermement.

- > Marquez la hauteur du bord de la baignoire.

- > Fixez la bride de carrelage (non fournie).

- > Marquez la position des clips sur la cloison.

**AVERTISSEMENT****Blessures mortelles par choc électrique!**

Un contact avec les fils électriques peut entraîner un choc électrique.

- > Assurez-vous qu'il n'y a pas de fils ou de chauffage électriques derrière la cloison ou sous le plancher pouvant être affectés par l'installation.

- > Apposez 2 supports de montage sur le cadre de la cloison pour le support latéral de la baignoire.

- > Nettoyez la surface sous la baignoire.

- > Raccordez l'évacuation et le trop-plein au système d'évacuation.

- > Nettoyez la baignoire.

- > Remplissez la baignoire d'eau.
- > Vérifiez la présence d'éventuelles fuites.
- > Veillez à vérifier l'étanchéité à l'eau des fixations.

- > Remplissez la baignoire d'eau.

ATTENTION

Appliquez uniquement le silicone recommandé pour les baignoires en acrylique.

- > Laissez reposer pendant 24 heures avant de vider.

Acerca de estas instrucciones

Las instrucciones de instalación son parte del producto Duravit y deben leerse con atención antes de la instalación.

Lectores destinatarios y cualificaciones

Este es un producto de calidad profesional. Para su correcta instalación y garantizar la satisfacción de los usuarios, se requieren conocimientos prácticos sobre técnicas de montaje así como cumplir la reglamentación de fontanería. La instalación del producto solo puede llevarse a cabo por un fontanero profesional.

Explicación de las palabras clave y de los símbolos

! ADVERTENCIA

Indica una situación peligrosa que puede provocar la muerte o lesiones graves si no se evita.

AVISO

Se utiliza para describir prácticas no relacionadas con lesiones físicas.

Inspección (p. ej. por si hubiera arañosos)

Comprobar que no haya fugas y que todas las conexiones sean estancas al agua

Indicación del tiempo (p. ej. 10 minutos)

> Se requiere una acción

Instrucciones de seguridad

Daños materiales y/o en el producto

El incumplimiento de las normas y reglamentos locales y específicos de cada país puede provocar daños materiales y/o en el producto.

- > Observar en todo momento los reglamentos locales de instalación y las normas específicas de cada país.

Un manejo descuidado puede causar daños en la superficie de las bañeras lacadas.

- > Proteja la bañera de los golpes y los arañosos durante la instalación y el transporte.

Antes de la instalación

Leer las fichas técnicas antes de la instalación. Las fichas técnicas pueden descargarse en www.pro.duravit.us.

Los productos cumplen los siguientes códigos:

- Código de fontanería uniforme (UPC®)
- Código canadiense de fontanería

Contenido del suministro

es

Accesorios recomendados (no incluidos)

790112
(cinta selladora para juntas de azulejos)

790219 (plástico)
790250 (metal)

Desagüe para bañera empotrada

791281 (PVC)
791282 (ABS)

- > Inspeccionar la bañera por si hubiera ocurrido algún daño durante el transporte.
- > No instalar el producto si hay daños visibles.

AVISO

Los elevadores por succión pueden causar daños en la superficie de las bañeras lacadas.

- > Coloque los elevadores por succión en el interior de las bañeras lacadas.

AVISO

Si se inclina la bañera sobre uno de sus lados, se pueden producir daños en la misma.

- > Colocar un cartón o una manta sobre el suelo.
- > Dar la vuelta a la bañera.

- > Retire el dispositivo de seguridad para el transporte.

- > Vuelva a colocar el embellecedor en la pata ajustable.

- > Conectar la tubería de residuos y el rebosadero (no incluidos).
- > Consulte las instrucciones de instalación del fabricante para el ajuste del desague/residuos.

- > Colocar la bañera sobre sus patas ajustables.
- > Asegurarse de que la bañera esté nivelada.
- > Ajustar las patas en caso necesario.

- > Ajustar el embellecedor en caso necesario.
- > Asegurar firmemente.

- > Marcar la altura del borde de la bañera.

- > Pegar la cinta selladora para juntas de azulejos (no incluida).

- > Marcar la posición de los soportes en la pared.

**ADVERTENCIA****¡Peligro de lesiones mortales por descarga eléctrica!**

El contacto con el cableado eléctrico puede producir descarga eléctrica.

- > Asegurarse de que no haya ningún cable eléctrico ni ningún circuito de calefacción detrás de la pared o debajo del suelo, ya que podría afectar la instalación.

- > Fijar 2 soportes al marco adosado a la pared para sujetar la bañera en los laterales.

- > Limpiar la zona debajo de la bañera.

- > Conectar la tubería de residuos y el rebosadero al sistema de desague.

- > Limpiar la bañera.

- > Llenar con agua la bañera.
- > Inspeccionar por si hubiera posibles fugas.
- > Asegurarse de que los accesorios sean a prueba de agua.

- > Llenar con agua la bañera.

- AVISO**
Aplicar solamente silicona recomendada para bañeras acrílicas.

- > Dejar que la silicona se asiente durante 24 horas antes de vaciar la bañera.
