

The Vista series is offered as a bathtub or a shower screen. It is sleek, stylish and sophisticated enough to fit a modern design, yet simple and practical enough to brighten a more traditional look. The well-designed configuration keeps it very functional and adds a touch of innovation to the room. The tall door opens widely from the outside, giving you easy access to the faucets. The large modern handle, strategically placed on the tall glass, can also be used as a practical yet stylish towel bar, keeping your bath towel readily on hand.
